

COMMUNITY EDUCATION

Empowering you to make informed decisions about complex healthcare choices.

We are dedicated to providing education to our community about palliative care, hospice care, the end of life, and a variety of other subjects for those facing chronic or serious illness. We provide educational programs to increase awareness of health care choices, improve quality of life, and plan for life's uncertainties.

Our speakers are experts and are very comfortable presenting to both small and large groups including clubs, civic groups, faith communities and businesses.

Help yourself, your loved ones and your community learn about your options.

We are your educational resource for free workshops covering a wide range of topics, to empower you to make informed decisions about complex healthcare needs when the time is right.

BE INFORMED

Be Informed.

Know your options for care.

Please join us at one of our events or schedule a presentation for your church, group or organization to learn more about how we can support you and your loved ones. Topics include:

- Basics of life care, including palliative, hospice, dementia and other services
- How to begin the conversation about end-of-life care
- Compassionate Simulation Lab: experience what it is like to live with dementia, neuropathy, COPD and other health challenges
- Skills and knowledge for caregivers, including essential basics for the activities of everyday living
- Understanding living will and healthcare power of attorney forms to ensure your wishes are known and honored
- Supporting those who are facing death, serious illness or the grieving process
- Ways to be involved with us, including volunteer and donor opportunities

Call us directly.
We are a resource for you.
