

# PALLIATIVE CARE

LOWER CAPE FEAR  
**LifeCare**

## Providing a better quality of life for you and your family while navigating complex healthcare decisions

One in four Americans has multiple chronic conditions (heart and renal disease, diabetes, COPD, cancer, and dementia); it increases to three in four Americans if they are age 65 and older. **Palliative care can help.**

We're your partner as you navigate complex healthcare situations, coordinating with your doctors to support your current treatment plan, and helping you manage pain and symptoms to improve quality of life for you and your loved ones.

- Ease pain and symptoms
- Fewer hospitalizations and for those hospitalized, a shorter stay
- Help, support and improve coordination of care
- Assist with discussions about goals of care
- Provide information and support on advance care planning

**BE INFORMED**

# Together we make **A DIFFERENCE.**

Our expert palliative care providers work closely with your existing physicians. It is a team-oriented approach to help with physical and psychosocial needs such as pain, nausea, vomiting, breathing difficulties, fatigue, confusion, and depression.

**Every patient and their family living with serious illness deserves palliative care.**

## Serving Patients Right Where They Live

- Private homes
- Assisted living
- Skilled nursing facilities
- Hospitals

**Improving quality of life for more than 400 palliative care patients each day.**

Our palliative services are covered by most private insurances. To find out if you or someone you love qualifies for hospice or palliative care, call 800.207.6908.
